REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant claims an organic light emitting device comprising a pair of electrode and organic compound containing layers sandwiched between the pair of electrodes wherein at least one layer of the organic compound containing layers contains (a) an aryl amine as defined by present claim 5 and (b) a compound represented by general formula (6). The closest prior art, JP 2002-212150, teaches an organic electroluminescent device comprising a pair of electrodes with a plurality of organic compound layers disposed between the electrodes wherein at least one organic compound layer comprises an arylamine and a fluorene derivative. The Japanese reference fails to teach or suggest the arylamine as defined in present claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
